

SPECIALIZED MEDICAL TRAVEL BENEFITS COVERAGE YOU CAN TRUST

While the risks of medical complications from our highly qualified surgeons are low, all surgical procedures and treatments carry certain risks and complications can and do occur. We are proud to partner with Custom Assurance Placements, who administer the Global Protective Solutions (GPS) program. GPS is the worldwide leader in providing risk mitigation solutions specifically for international medical travelers seeking elective medical procedures.

The Global Protective Solutions programs have been protecting international medical travelers and their travel companions since 2008. International medical travel requires unique and specialized protection, which standard travel insurance policies usually exclude or do not address. Participation is available on a worldwide basis.

The primary area of benefits cover two broad areas:

BENEFITS RELATED TO YOUR PROCEDURE / TREATMENT	BENEFITS RELATED TO TRAVEL
Additional Medical / Surgical Treatment as a result of a Complication	Travel Cancellation, Delay and Loss of Baggage
Additional Expenses for Travel, Meals & Accommodations as a result of a Complication	Emergency Medical Coverage related to Travel Activities
Accidental Death	Accidental Death
Emergency Transportation / Medical Repatriation	Repatriation of Mortal Remains
24 Hour – Emergency Medical Assistance Service and more...	and much more...

The above provides only a brief overview of benefits and services available to enrolled participants

- Medical complication benefits are in place for 6 months (180 days) after the elective procedure a complication must occur and be diagnosed within this timeframe
- Medical complications can be treated in your home country or in the country where the procedure was originally performed
